

Theatre Professionals of Color Serving Youth of Color

The CFA Repertory Theatre is a collective of theater practitioners of color dedicated to spotlighting and presenting theater aimed at young audiences. Guided by AFRICAN DIASPORIC values, we champion culture, community, purpose, creativity, and collective effort. Our unique enclave welcomes adult theater professionals of color who champion youth empowerment through representation, offering pre-professional training, community enrichment, and mentorship all within a nurturing environment.

Productions from the CFA Repertory Theatre echo these principles through the vast scope of creative storytelling, honoring African Diasporic culture while advocating for social equity.
